## Sarratt Single-Use Rigid Biopsy Forceps

Sarratt single-use biopsy forceps are designed for routine use in outpatients, day surgery and main theatres.

The forceps have sharp 4mm steel cutting jaws (unspiked), a rigid steel shaft 310mm long for use inside a conventional rectoscope/rigid sigmoidoscope, and an ergonomic handgrip with thumb-ring.

The forceps are supplied sterile, individually peel-pouched in a shelf-box of 10.

## Sarratt Single-Use Biopsy Forceps

- sterile
- disposable
