

Sterile Rectoscopy Kits

for best infection control practice

For practitioners following best infection control practice & who insist on single-use sterile items, *Stericom's* sterile rectoscopy kit offers the ideal solution.

- *best light quality*
- *eco-friendly*
- *no batteries*
- *sterile*
- *convenient*
- *single-use*
- *traceable*

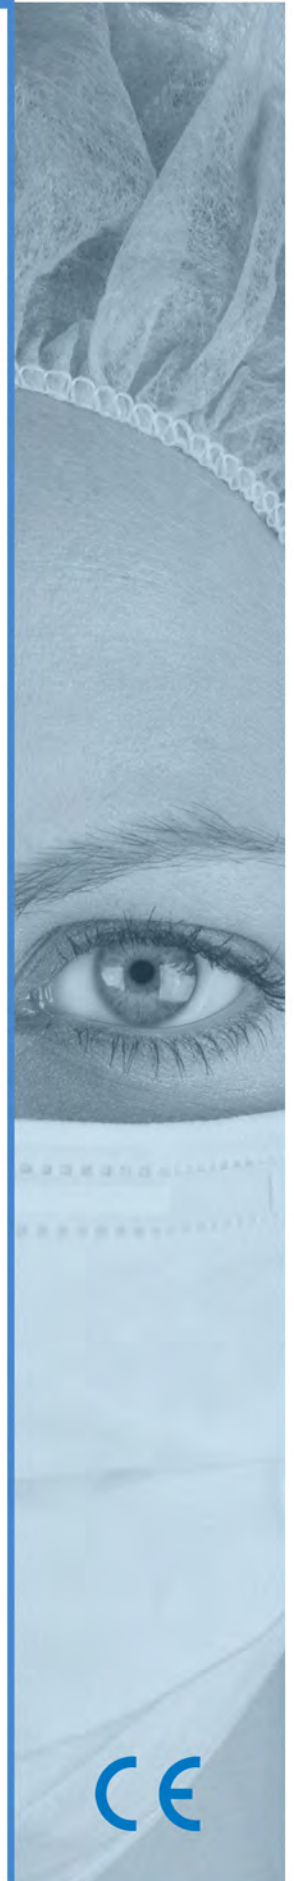

The rectoscopy kit offers sterility, traceability & convenience. The kit is supplied in a sterile pouch complete with rectoscope (2 sizes to choose from), eyepiece/handgrip, insufflator & 2x peel-off labels for patient LOT number tracing. A plastic disposal bag is also included.

- *adaptors available for endoscopic camera systems*

We also offer an adaptor that enables our proctoscopes and rectoscopes to connect to most endoscopic camera systems. This unique feature enables the user to capture diagnostic imagery for the purpose of patient records and for clinical education.

Lowest unit cost per patient...

makes single-use sterile rectoscopy affordable!
