

Suction Banding System

for best infection control practice

Stericom offers a choice of lightweight, portable suction units for suction banding and other surgical procedures. A battery-mains unit offers maximum flexibility for use in any clinical setting. Accessories include single-use liners and tough silicone suction tubing.

ASKIR 30: mains only

- small, lightweight (3.6kg) and portable
- ideal for use in OPD & other clinical settings
- suction up to 80kps
- supplied with 4000mm mains lead
- low maintenance, reliable
- option of single-use, disposable liners
- 24-month warranty

ASKIR 230: 12 volt mains/battery

- small, lightweight (5.1kg) and portable
- ideal for ambulatory & crash-trolley use
- suction up to 80kps
- supplied with 4000mm mains lead
- low maintenance, reliable
- option of single-use, disposable liners
- 24-month warranty
- direct 230 volt mains or re-chargeable battery, also works from car cigar lighter socket

FLOVAC suction liners

Flovac suction liners offer the highest standards of infection control.

- box of 50x liners (capacity = 1000ml or 2000ml)
- single-use liners ensure best-practice infection control

STE 1010 silicone suction tubing

- thick-walled and stretchy silicone tubing is kink-resistant and ensures optimal performance
- fits all connectors on the suction unit and may be cut to length as required
- pouched in 2000mm lengths
- 10x pouches per pack

LEM Banding Guns & Rings

The pistol-shaped, single-use LEM bander is easy to load and use.

Moulded in tough ABS polymer, the LEM is delivered in a box of 25x banders, each one peel-pouched and available either with or without rings. An individual loading cone is included in each pouch and either latex or non-latex rings are available.

order code	description	units	per box
